

CONVERGENCE COURSES

Convergence MSHA Courses

Our Surface Miner Training courses are designed to help mine owners and operators meet MSHA training requirements detailed in Title 30 CFR Part 46. Based on the insights and knowledge of experienced miners, extensive industry research, and MSHA best practices, these courses can be used in conjunction with supervised, on-site training as part of an approved training plan.

Course Title:	Time:*	ID:
■ Course Information	7 min	201
■ MSHA Training Requirements	11 min	202
■ Surface Mine Development	12min	203
■ General Physical Characteristics	9 min	204
■ Typical Surface Mining Equipment	15 min	205
■ Hazard Overview	7 min	206
■ Environmental Hazards	15 min	207
■ Equipment Hazards	23 min	208
■ Physical Hazards	15 min	209
■ Chemical Hazards	7 min	210
■ Emergency Procedures	18 min	211
■ Preventing Accidents	12 min	212
■ Using Personal Protective Equipment	21 min	213
■ Working Around Equipment	25 min	214
■ Maintaining and Repairing Equipment	18 min	215
■ Working in a Confined Space	19 min	216
■ Working on or Near Water	2 min	217
■ Working at Night	2 min	218
■ Working with Chemicals	16 min	219
■ Working with Electricity	12 min	220
■ Working with Explosives	4 min	221
■ Site Rules and Hazard Reporting	5 min	222
■ Rights and Legal Responsibilities of Miners	23 min	223
■ Line of Authority	12 min	224
■ Respirators	28min	225
■ Escape Respirators and SCSRs	21 min	226
■ First Steps in All First Aid Situations	26 min	227
■ First Aid for Emergencies	40 min	228
■ First Aid for Common Injuries	36 min	229

*Times include video length and estimated time for testing.
